

TFX™ WHITE

The new Inforce Handheld is the optimal balance between weight and output. Using two 123a batteries and emitting 700 Lumens through the powerful LED, it lights up the night with a brilliant focused hotspot and tailored peripheral beam. Weighing in at 3.75 ounces this flashlight virtually disappears on your body and is perfectly suited for your every day carry. Activation via the intelligent electronic switch allows a soft push for momentary light and a full click for constant on. The textured rubber button provides a positive non-slip surface and the knurled body offers a confident grip when operating the light in any condition.
